Rising with Africa

2024/25

OUR MOTTO

“RISING WITH AFRICA!”

Africa Rising is a term coined to describe the rapid economic growth in Sub-Saharan Africa since 2000 and the belief in the inevitability of further, the rapid development of the continent. The continent is almost predestined to enjoy a long period of mid-to-high economic growth, rising incomes, and an emerging middle class. Several international business observers have also named Africa as the future economic growth engine of the world.

There are positive longer-term trends across Africa all buoyed by what appeared to be high economic growth rates sweeping the continent. Ethiopian Re, as the youngest reinsurance company stands to benefit immensely from the unprecedented business opportunities brought about by the burgeoning economic performance of Africa, and hence the motto “Rising with Africa”. Basing itself in East Africa, the Company is committed to providing apposite reinsurance cover for the ever-rising and dynamic demand for protection.

Establishment

Ethio Re is the first reinsurance Company incorporated under the provisions of article 5(8) of the Insurance Business Proclamation No.746/2012. It commenced operation on 1st July 2016, carrying on both life and non-life businesses. Ethio Re's head office is located in Addis Ababa, Ethiopia, with a newly acquired transitional headquarters building and land secured for our future permanent headquarters - tangible evidence of our growing capacity and long-term commitment to the market. The Company has also a plan to open branches in other countries as and when necessary.

Relying on a relatively strong initial capital base, plus sound retrocession protection afforded by world renowned reinsurers, Ethio Re ventures to offer comprehensive range of inward reinsurance cover to domestic insurers, in addition to accepting international business on selective basis. The Company mobilizes financial resources which would then be invested to generate income,

Lideta, Addis Ababa

not to mention the role it plays in reducing hard earned foreign currency outflow by reducing cross border reinsurance transactions.

Moreover, as the first reinsurance Company in the country, Ethio Re endeavors to enhance underwriting capacity and solvency of direct insurers through providing technical support and cover against individual and accumulated catastrophic losses. It also works to simplify treaty negotiations, settlement of claims and payment of ceded premiums in local currency within the shortest time. Ethio Re is an organization born out of an age old aspiration to form a strong national Reinsurance Company. The concept paper for the formation of Ethio Re was written in 2012 by a team of experts who took the initiative under the auspices of the Ethiopian Insurance Corporation (EIC). The establishment of Ethio Re finally was made possible through Directive No SRB/1/2014 issued by the National Bank of Ethiopia.
